Monthly Safety Training

SLOW IT DOWN.

Adjust your speed and slow down when driving in the rain or fog. Leave extra space between you and the car in front of you. This gives you more time to react to other vehicles and hazards

CRASH RISK.

Fog is a major cause of roadway crashes due to limited sight distance. Hidden curves, accidents, and debris can all be difficult to see in the fog.

DECREASED REACTION TIME.

Impaired vision and roadway hazards lead to less reaction time. Be sure to turn off the radio to reduce distraction.

LOW AND SLOW.

Use your low beam lights and fog lights when driving in the fog. This makes your vehicle more visible to others.

BETTER SAFE THAN SORRY.

Find a safe place to stop during inclement weather. Never be afraid to wait it out.

SCAN THE CODE, LEARN MORE.

We have created a short, fun, and interactive “game” for each monthly safety training topic. Scan or click the code to play along!
