# Monthly Safety Training

## TAKE SAFETY SERIOUSLY.

Safety isn't optional... it's a legal, company, and personal responsibility. Make safety a personal value. It's not just a box to check.

## STAY ALERT AND PREPARED.

Pay full attention to your work, avoid complacency, and don't take on risky tasks when tired. Know what to do in emergencies and ask questions if procedures are unclear.

## FOLLOW COMPANY POLICY.

Use equipment properly, follow all job and safety rules. Make full use of protective gear, and cooperate during inspections. Safety procedures exist to protect you, so use them every time.

## LEAD BY EXAMPLE.

Avoid reckless behavior, encourage coworkers to follow safety practices, and set a positive example. Your actions influence the safety culture around you.

## IMPROVE AND ENGAGE.

Report hazards, suggest improvements, and volunteer for safety committees or demonstrations. Active participation helps create a safer workplace for everyone.
