

2023 Round-Table Discussion

April 4, 2023

- **How to get Driver Managers/Supervisors involved in workers' comp safety as the "connector" to the driver/employees?**
We continue to discuss the need to engage drivers, but how do we develop Driver Manager training to show the value of safety?
 - Pilot program?
 - Engage with RMAC member driver managers for feedback/ideas (stretching, fatigue, mental health, health/wellness, pre/post trip inspections)
 - Work Comp 101
- **Review of September 2021 Safety Blitz: MVAs**
Our second-annual Safety Blitz was even more successful in reach and participation than the first one. How do we continue to make it better?
 - What is working and what is not?
 - Format? Length? Timing?
 - Did management/driver managers/drivers get engaged and involved?
 - Potential Safety Blitz 2023: topic/theme? (seat belts, road observations, etc)
- **Exposures Focus**
We have seen multiple claims over \$100k in the last twelve months. How do we identify and limit exposure to such potential situations?
 - Shoulder claims
 - Back claims
 - Safe work methods
 - Longitude6 Technology
- **ATA Comp Fund Resource Page**
How do we make our resources the most effective for our members?
 - Too much information?
 - Not enough information?
 - What are we missing? What tools of the trade are out there that makes the job easier/reduce injuries?
- **Progressive discipline relating to safety policies and/or enforcement**
Are progressive discipline programs effective in promoting safety?
 - Do you have a written progressive discipline program?
 - What works? What doesn't?
 - OSHA/CSA suggestion programs
- **Below100.org**
A training program designed specifically for safety in the line of duty for law enforcement.
 - What are the take-aways from this program and how do we incorporate it into workers' compensation safety?
 - Driver pledge(s)
